X P P E N

State-of-the-art digital tablets with all the latest technology

Founded in 2005 XPPen is a professional, reliable, affordable, and well-known manufacturer of creative digital devices such as pen tablets, pen displays, and digital stylus pens. Leave behind the limitations of traditional drawing tools! XP-PEN tablets give their users total freedom and flexibility in their creative endeavours.

The Print & I.T distribution partner you can rely on.

Industry & Use Overview

Distribution par excellence:

brother Canon EPSON Lexmark Quantum SanDisk

X P P E N

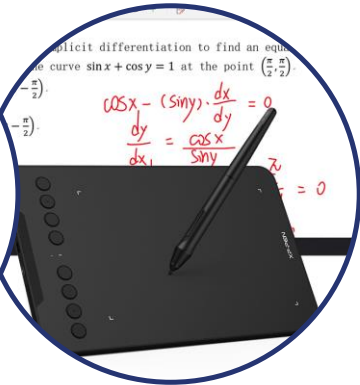

The XPPen range is ideal for a variety of uses such as 3D modeling, animation, illustration, art, image & video editing, and graphic design, where these products can power creativity and innovation in design! The XP-PEN product range also offers support to educators and students, helping maximise the learning experience. In business, XPPen products can improve efficiency and communication.

XPPen displays and tablets can be used in a variety of industries, such as:

Education

XPPen products offer solutions for educators & students to maximise their learning experience.

Creative

XPPen products support artists and designers to push creative boundaries and drive business success

Business

XPPen products improve efficiency and communication in business.

Remote Working

Distribution par excellence:

brother Canon EPSON Lexmark Quantum SanDisk

XPPEN FOR REMOTE WORKING

Learn, teach or create remotely.

Online Meetings

Improve online team meeting interactions. XPPen is compatible with ZOOM and Microsoft Teams.

2nd Monitor

Improve work efficiency and performance with an XPPen Display as an additional monitor.

Remote Working For Educators

Recreate the traditional classroom experience online. Teachers can create and explain interactive content visually by writing, editing, and annotating directly in files and sharing their screen in real-time.

ZOOM

Microsoft
Teams

Udemy

XSplit

Remote Learning For Students

Simultaneous digital inking with an XPPen graphics tablet, compatible with Microsoft Office apps like Word, PowerPoint, and OneNote. Present your handwritten content precisely.
